UIC POs for PPA Agencies: Once you have your midyears scheduled, please also let Christine Vigil know the date. She is coordinating elevation of any RA-level midyear issues for the Water Program. It's a good idea just to ask your state counterparts during the call if there are any UIC issues their management intends to bring to Shaun's attention (I realize this is unlikely). It is also possible that there are issues we plan to proactively bring the State's attention through Shaun (see example just below).

At this point in time, I suspect we will need to prepare a midyear issue paper on our Dewey Burdock permits/AE in SD (Valois' lead). While this is DI, it will likely be a topic of conversation between Shaun and the DENR.

One more reminder: while I should know more by March 4th about when senior management expects our midyear evaluations to be completed, please go ahead and contact your state/tribal counterparts now about schedulings. If you believe there is good reason to conduct an on-site (e.g., file) review, please come see me first.

There are at least three pieces of information I know of which we should convey to your counterparts: 1) final UIC grant award amounts (which should be finalized soon); 2) the UIC inspector training in Philadelphia the last week of April; and 3) UT 1425's Dan Jarvis hosting the R8 UIC Directors meeting later this year. It will mostly likely be in Moab, Utah around the first week of October.

Please include Kimberly and myself on your invitation once the date and time of your midyear call is set.

Thanks,

Douglas

Subject: Review of UIC EOY FY 14 Reports (Action Please)

Just a reminder that if you have not documented your findings from reviewing your respective state/tribal UIC program's FY 14 EOY report, please do so and share a copy with Kimberly and myself.

Thanks,

Douglas
